2-Letter Words and Their Hooks

This list shows all the 2-letter words, from AA to ZA. On either side of each 2-letter word are the letters that can be “hooked” onto the front or back of the 2-letter word to make a 3-letter word. For example, B can be added to the front of AA to make the word BAA, and H, L and S can be added to the back of AA to make the words AAH, AAL and AAS.

A play that uses all 7 of your tiles scores a 50 point bonus, and is popularly referred to as a “bingo.” Bingos are the key to high scores, and they can be much easier to find than you may think.

Since unscrambling 7 letters to make a word can be a challenging task, experienced players use tricks to search for 7-letter words by unscrambling just 4, 5 or 6 of their letters. Chief among these tricks is to look for common word endings and prefixes in your rack. For instance, if you have an I, an N and a G in your rack, you can move them to the end of your rack to make the -ING ending, and look at the remaining 4 letters to see if you can make a 4-letter verb out of them. Once you have the habit of watching for common endings, making a 7-letter word out of the rack NNP GATI is as easy as making a 4-letter word out of NPAT, because you’ll first try rearranging the rack to NPAT-ING.

Some common endings to look for are -S, -ES, -ED, -ER, -LY, -ING, -ERS, -IER, -EST and -IES. Some common word prefixes are RE-, UN-, DE- and OUT-. Here are some racks that may look formidable at first glance, but quickly yield 7-letter words when rearranged to try common endings and prefixes:

ULIRERC → ULRC-IER → CURLIER
 LTNCUAH → UN-LTCAH → UNLATCH
 DALGETO → ALGTO-ED → GLOATED
 ITEULVO → OUT-IELV → OUTLIVE
 RMNAEAG → MNAAG-ER → MANAGER
